PART II—SECTION 1

Notifications and Notices issued by the Patent Office relating to Patents and Designs

THE PATENT OFFICE

Patents and Designs.

Calcutta, the 4th February 1950

Special Notice

The Patent Office Journal, 1946, containing particulars of applications for patents and designs for the years 1940 to 1943 and of certain other proceedings under the Indian Patents and Designs Act, 1911, upto the 31st March 1948, has been published and is now available for sale with the Manager of Publications, Civil Lines, Delhi, (and for local sale only at the counter of the Government of India Book Depot, 8, Hastings Street, Calcutta) at Rs. 50/4/- or 76 sh. per copy.

Applications for Patents

The dates shown in crescent brackets are the dates claimed under Section 78-A of the Act.

The 19th January 1950

- 12570. A. U. Momin. A radio clock.**
- 12571. Food Machinery and Chemical Corporation. Improvements in or relating to furnaces and methods of operating the same.**
- 12572. Parcofil Textile Machinery Makers, Ltd. Double-twist twisting spindle.**
- 12573. W. Bockli. Improvements in or relating to missile projecting devices. (20th January 1949).**
- 12574. Standard Telephones and Cables Limited. Improvements in or relating to telephone systems. (21st January 1949).**

The 20th January 1950

42575. Dr. K. D. Mannah. An improvement in cycle rickshaw and van hub.
42576. Technicolor Motion Picture Corporation. Improvements in method of hardening the dye-absorptive hydrophilic colloidal layer of a blank film and the product thereof. (21st January 1949).
42577. Technicolor Motion Picture Corporation. Improvements in cinematographic matte film. (21st January 1949).
42578. S. G. Young. Improvements in or relating to hack-saws. (21st January 1949).
42579. W. R. Barraclough. Holder for a liquid-pouring vessel, such as a serai, water bottle or the like.

42580. Dunlop Rubber Company Limited. A method and apparatus for varying the twist in filamentary material and rubberised fabric made therefrom. (28th January 1949).

The 21st January 1950

42581. Joseph Lucas Limited. Improvements relating to filling devices for electric storage batteries. (24th January 1949).

The 24th January 1950

42582. K. R. Rede. A road train system.
42583. K. R. Potphode. Combined cooker and water heater.
42584. Imperial Chemical Industries Limited. Improvements in electrolysis. (7th February 1949), [Addition to No. 39461].
42585. Imperial Chemical Industries Limited. Salt crystals. (23rd February 1949).
42586. The Dorr Company. Segregating solids by grain size.
42587. Ronald Trist & Co., Limited. Improvements relating to devices responsive to the level of liquids.
42588. E. K. Cole Limited. Improvements in or relating to electrical connectors. (25th January 1949).
42589. D. J. W. Dryburgh and Y. A. Waterton. Method for producing articles for dead bait, dead bait fishing tackle, display, ornament and like purposes, and products obtained by this method.
42590. Bowden (Engineers) Limited. Improvements in and relating to flexible hose couplings. (27th January 1949).
42591. Wade Engineering Limited. Improvements in or relating to rotary compressors or engines.
42592. Burndepth Limited. Improvements in the manufacture of electric dry cells. (26th January 1949).
42593. A. Landini. Inflatable spherical or part spherical map.
- The 25th January 1950*
42594. W. M. Stokes. Improvements relating to the tying and general handling of tobacco leaves for various purposes such as curing. (1st February 1949).
42595. Don Waston & Co., Ltd. Improvements in or relating to loom pickers.

42596. Don Watson & Co., Ltd. Improvements in or relating to pressure rollers for use in use spinning.
42597. Don Watson & Co., Ltd. Improvements in or relating to shuttles for weaving jute, wool or the like.
42598. Lamson Paragon Supply Company Limited. Improvements relating to transfer copying.
42599. A/S Norduco. Process for preparing pure, well-crystallized hexanitrodiphenylamine.
42600. Technicolor Motion Picture Corporation. Cinematographic light control apparatus.
42601. British Ropeway Engineering Company Limited. Improvements in or relating to cableways, cable cranes, telfers and the like. (27th January 1949).
42602. Nederlandse Organisatie Voor Toegepast-Natuurwetenschappelijk Onderzoek Ten Behoeve Van Nijverheid, Handel En Verkeer. Process for dyeing and auxiliary for making up dye recipes.
40703. A. Freitas. Improvements in and relating to protectors for boiler water level gauges and the like apparatus. Accepted on 24th January 1950.
- Consists of a transparent enclosure having one or more segments of cylindrical form.*
40811. Centre National De La Recherche Scientifique. Improvements in or relating to induction electrostatic machines. Accepted on 21st January 1950.
- Two groups of at least two brushes each co-operate with conducting sectors connected to movable members; brushes of one group connected in parallel to one pole and of other group to other pole.*
41001. De Directie Van De Staatsmijnen in Limburg. Process and installation for the manufacture of gas mixtures by gasifying fine-grained carbonaceous material. Accepted on 24th January 1950.
- Gasifying carbonaceous material in two reactors the volume of one is much larger than the other and the principle applied is "cross-flow".*

Alteration of Date

40380. The claim to priority date 15th October 1947 has been abandoned and the application dated as of 19th October 1948, the date of filing in India.

Application Accepted

Notice is hereby given that all persons interested in opposing the grant of patents on any one of the applications, referred to below, may at any time within four months of the date of this Gazette of India give notice to the Patent Office in the prescribed form No. 6 of the Indian Patents and Designs Rules, 1933, of such opposition.

A limited number of printed copies of the specifications in the following list will be available for sale from the Manager of Publications, Civil Lines, Delhi, and also on cash payment at the counter of the Government of India, Central Book Depot, 8, Hastings Street, Calcutta, in due course. The price of each specification is Re. 1 (postage extra if sent out of India). Requisition for the supply of printed specification should be accompanied by the number of the specifications as shown in the following list.

If required, typed copies of the specifications, together with copies of drawings, if any, can be supplied by the Patent Office, on payment of the necessary charges which may be ascertained on application to the office.

The dates shown in crescent brackets are the dates allowed under section 78-A of the Act.

39586. A. Polgar and Jean-Claude Vierende. Method of hydrogenation of unsaturated compounds. Accepted on 19th January 1950.

Circulating the fatty materials with a catalyst in an atmosphere of hydrogen.

40058. E. Beuttenmuller. An extractor particularly for extracting vegetable oils, and process of extraction. Accepted on 20th January 1950.

Consists of an extracting chamber and a collecting chamber and a filler between said chambers wherein the extracting chamber constitutes a space between said filler and a perforated wall disposed concentrically to two chambers.

40380. L. Rado. Process for the production of liquid or paste filled containers. Accepted on 24th January 1950.

Made from pliable sheets having a thermoplastic surface, contents being airtightly sealed by application of heat and pressure.

41036. Joshua Bigwood & Sons Limited. Feed or extraction mechanism for feeding work into or extracting it from straightening machines for rods or tubes. Accepted on 21st January 1950.

A pair of driven skew rolls having concave periphery at opposite sides of rod or tube imparting helical motion to same; rolls can be moved towards or away from the work so as to grip its leading end while feeding or extraction.

41110. Actiengesellschaft Joh Jacob Rieter & Cie. Improvements in top drawing-rollers for spinning machines. Accepted on 19th January 1950.

Top roll-sleeve being held in place on the outer face of the anti-friction bearing by a radial pressure produced by the elasticity of the top-roller material.

41146. American Cyanamid Company. Improvements in or relating to insecticidal compositions. (2nd July 1948). Accepted on 19th January 1950.

Containing a carrier and a dithiophosphate ester.

41241. Carrier Corporation. Refrigeration systems. Accepted on 19th January 1950.

Direction of flow of a portion of the medium varied to decrease the period of time the medium is in the heat exchanger.

41285. E. M. Hall, K. V. King and L. V. King. Improved plumber block. Accepted on 19th January 1950.

A split bearing carrier with a centrally disposed secondary oil well.

41422. N. V. Philips' Gloeilampenfabrieken. Improvements in or relating to circuit-arrangements for positioning a selector switch in an automatic signalling system. Accepted on 24th January 1950.

Comprises switches of which the number of contacts successively engages the wipers corresponds to that of the switch to be positioned.

- 41613 J. Vanacker. Improvements in the manufacture of footwear and in moulds used for this purpose. (30th June 1948). Accepted on 24th January 1950.

Introducing into a mould rubber materials for forming the sole, viz. an upper layer comprising a rubber mix containing a sponging medium and a lower layer of rubber composition.

41689. Nederlandse Organisatie Voor Toegepast-Natuurwetenschappelijk Onderzoek Ten Behoeve Van De Voeding. Process for stabilizing milk powder. Accepted on 24th January 1950.

By addition of an aqueous emulsion of alcoholic gallates with 6 or more carbon atoms from 0.001 to 0.005 per cent.

41849. Cilag Limited. Process for the production of naphthyridine derivatives. Accepted on 24th January 1950.

Reacting a halogenated naphthyridine with an aliphatic alcohol or thioalcohol in the presence of a condensing agent.

41875. The Plastic and Industrial Corporation Ltd. Improvements in or relating to hollow handles for umbrellas or walking sticks. Accepted on 24th January 1950.

Two longitudinal segmental halves, having longitudinal grooves on the outer surface, cemented together.

42183. Imperial Chemical Industries Limited. Manufacture of quaternary salts. (5th November 1948). Accepted on 24th January 1950.

Reacting corresponding quaternary salt of halogen acid with lower alkyl ester of sulphonic or sulphuric acid.

42248. George Salter & Company Limited. Improvements in weighing machines. (9th February 1949). Accepted on 19th January 1950.

A stop consisting a bar or pin carried between the centres of a parallel pair of link pivoted at their ends to parts on platform and bars, which have parallel inclined surfaces having in between them an antifriction element.

42263. Regina S. A. Improvements in or relating to double twist spindles. (13th September 1949). Accepted on 19th January 1950.

A rotatable vertical spindle having an arial passage, a yarn guide fast on the spindle, a yarn package carrier, a yarn guide on the carrier and vanes on the carrier.

42392. T. W. Flory. Improvements in or relating to collet chucks. Accepted on 24th January 1950.

Axially spaced conical peripheral faces taper in the same direction and body provided with two series of angularly spaced longitudinal slots.

Restoration Proceedings

Notice is hereby given that an order was made on the 9th January 1950 restoring the patent numbered 22377 and dated as of the 26th November 1934, granted to John Dalrymple Rogers and subsequently assigned to Whitelegg & Rogers Limited, for "Improvements in or relating to the construction of locomotive axle boxes and keeps admitting of and including an improved manner of applying hard grease lubrication to the journals".

Registration of Designs

The following designs have been registered. They are not open to inspection for a period of two years from the date of registration except as provided for in Section 50 of the Indian Patents and Designs Act.

The date shown in each entry is the date of registration of the designs included in that entry.

Class 13 Nos. 71449 to 71456, 71458 to 71463, 71465, 71466, 71468, 71470, 71472 to 71478 and 71480. Messrs. The Standard Mills Co. Ltd., Indian Nationality, 29, Rustom Building, Churchgate Street, Fort, Bombay, Textile goods, August 8, 1949.

Class 13 Nos. 71697, 71699, 71700 and 71702 to 71712. Messrs. The New China Mills Ltd., 29, Rustom Building, Churchgate Street, Fort, Bombay, India, Indian Nationality, Textile goods, December 6, 1949.

Class 14 Nos. 71457, 71464 and 71469. Messrs. The Standard Mills Co. Ltd., Indian Nationality, 29, Rustom Building, Churchgate Street, Fort, Bombay, Textile goods, August 8, 1949.

K. SESHAGIRI RAO,

Controller of Patents and Designs.
